

Ain't The Only Thing

Clever

Like a whiskey, no glass
Kansas night sky, no stars
If you clicked them heels and you came back
I wouldn't be a ten mile no heart

When you said goodbye
You left more than me behind

As a corner blue, missing you, sipping on tequila
I never fit that in that I'll be dying to hear ya
Porch light every night waiting up to see ya
Baby, come home, I ain't the only thing that needs ya
In this bed tonight, you left it cold as ice
Baby, come home, I ain't the only thing that needs ya
Even the house is quiet without your voice inside
Baby, come home, I ain't the only thing that needs ya

If my phone finds your name
And calls too many times
Girl, I ain't the one to blame
That thing's got it's own mind

When you said goodbye
You left more than me behind

There's a corner blue, missing you, sipping on tequila
I never fit that in that I'll be dying to hear ya
Porch light every night waiting up to see ya
Baby, come home, I ain't the only thing that needs ya
In this bed tonight, you left it cold as ice
Baby, come home, I ain't the only thing that needs ya
Even the house is quiet without your voice inside
Baby, come home, I ain't the only thing that needs ya

Since you've been gone, girl, I don't know what to do
Least I ain't alone tryna get outta here

(There's a corner blue, missing you, sipping on tequila)
(I never fit that in that I'll be dying to hear ya)
(Porch light every night waiting up to see ya)
(Baby, come home, I ain't the only thing that) needs ya
In this bed tonight, you left it cold as ice
Baby, come home, I ain't the only thing that needs ya
Even the house is quiet without your voice inside
Baby, come home, I ain't the only thing that needs ya
(Needs ya, needs ya)
(The only thing that needs ya)
Baby, come home, I ain't the only thing that needs ya
(Needs ya, needs ya)
(The only thing that needs ya)
Baby, come home, I ain't the only thing that needs ya
