Alive

Clever

1 AM, I'm lost in you
Stand in between the street light and the shadows on the ground
When I smoke the close the day, a dozen roadblocks along the way
I hope you feel the way you feel forever

'Cause Heaven knows I'll still love you when we're old
And talk about all the times that we had
I hope you know you still have my heart and soul
And on the days that I feel dead on the inside
You make me feel

Hand in hand I hold the world
Eye to eye, I see everything I need
And your face under the moonlight
Scared to fly, but I know you might
I just hope the man upstairs is lettin' me in when you get there

'Cause Heaven knows I'll still love you when we're old
And talk about all the times that we had
I hope you know you still have my heart and soul
And on the days that I feel dead on the inside
You make me feel alive
You make me feel alive

What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?
What if I said I'm crazy for you?

I can't leave you
Can't leave you crying
Leave you 'lone so now
You crying, oh-oh
I can't leave you
Can't leave you crying
Leave you 'lone so now
You crying, oh-oh

Had it up to here
I don't wanna feel this way tomorrow
I've had it up to here
I don't wanna feel this way, yeah-yeah
I've had it up to here, I don't wanna feel this
Someone stop the room, less I have to deal with
Had it up to here
I've had it up to here

Forgive me, I may never fit in
Puzzle pieces sometimes take their own shape, oh

Decide if I deserve the time
Broken heart but I'll be fine
Just you wait and see
Assumed you hated me
But now you love me, now you listen closer
Take the life I live, then call it over
I might be one of the cool kids now, ooh
Eyes in the window you lost somehow
Closets and revolving doors
Hide me from the spinning floor

'Cause I've had it up to here
I don't wanna feel this way tomorrow
I've had it up to here
I don't wanna feel this way, yeah-yeah

'Cause I can't leave you
Can't leave you crying
Leave you alone so now
You crying, oh-oh

I've had it up to here
I don't wanna feel this way tomorrow
I've had it up to here
I don't wanna feel this way, yeah-yeah
