

Before I Go

Clever

Knee deep in the clovers just to touch you
Lucky me if you feel me when I'm gone
Underneath the sunshine, you look like paradise
And I don't wanna go home alone
If only for a moment, I could hold you
I would know why love wasn't good to us before

But if there's no second chances
And we're running out of time
And I don't wanna miss you anymore
And I don't care if the world watches me fall flat on my face
And I don't care if they never understand

'Cause I know the world can pass you by
You fuel the fire or the flame will die
Won't you tell me that you know just who I am?
Baby, please, before I go

Walking under ladders before you came to mind
The words I said before you were such a waste of time
But from all that you've heard
You don't know what is real
So to you it's just words
When I tell you how I feel

And I don't care if the world watches me fall flat on my face
And I don't care if they never understand

'Cause I know the world can pass you by
You fuel the fire or the flame will die
Won't you tell me that you know just who I am?
Baby, please, before I go

Don't you know I'm the one when you see me
I don't mind if the world knows that I need you
Can't you tell me that you know just who I am?
Can't you tell me that you know?

And I don't care if the world watches me fall flat on my face
And I don't care if they never understand

'Cause I know the world can pass you by
You fuel the fire or the flame will die
Won't you tell me that you know just who I am?
Baby, please, before I go

Don't you know who I am
I'm the one you came for
Searching for you I am
Love me now before I go
Before I go
