

checking on me

Clever

Aye yo, flex you're wilding

I did my dirt, paid my dues to prove myself
Had to climb up that dope hole, I ain't need no help
A lot of gun fire, lot a nigga died, I said fuck 'em oh, well

I did my dirt, paid my dues to prove myself
Had to climb up that dope hole, I ain't need no help
A lot of gun fire, lot a nigga died, I said fuck 'em oh, well
When it go down ain't nobody round watch all of 'em bail

Ooh, nah, nah, nah I made a way
I separated, got some money, I played it safe
Ooh, nah, nah, nah I made a way
They weren't checking on me, they were flexing on me

Run around in the skeet, yeah I'm a concrete baby
Everybody dipped on a nigga switched on me
I can't wait until I make it, they ain't getting shit from me
Used to shit on me, my own partner went and snaked me
He wrote it all in a statement
Vow to keep it real, never change
Vow to keep it real, never switch

I was just down on my dick, I ain't even ask for a thing
I was just bagging up nicks
I'll do it all for the win, I'll bet it all myself
Give me the drop and I'ma spin, I on need help, I'ma step

I'll go step alone, I'm a black sheep
I don't feel attached, I ain't got a happy home
Ever had to watch the words you say talking on the jail phone
I'm full of pain, they killed my nigga, I gotta catch a dome
But I'm still holding on

I did my dirt, paid my dues to prove myself
Had to climb up that dope hole, I ain't need no help
A lot of gun fire, lot a nigga died, I said fuck 'em oh, well
When it goes down ain't nobody round watch all of 'em bail

Ooh, nah, nah, nah, I made a way
I separated, got some money, I played it safe
Ooh, nah, nah, nah, I made a way
They weren't checking on me, they were flexing on me

I had a brother he was lost off in the drug game
Started snitching on me, should have left him there with a blood stain
And the years go by, and I never said another word to him
Called him a snake when I'd refer to him
Wish I had the words confused
'Cause it hurts to lose, been dead for a month before I even heard the news

Now I can't let nobody close, I keep a switch off to the side
'Cause some of the 'em switch sides
Fuck it, I earned my respect
'Cause I paid my dues

Fucked around and made the news
Tryna prove myself, ain't nothing for me in that cell uh
Only hope comes in an envelope, I am afraid to say
It's time to make a way
It's time to make a way

I did my dirt, paid my dues to prove myself
Had to climb up that dope hole, I ain't need no help
A lot of gun fire, lot a nigga died, I said fuck 'em oh, well
When it go down ain't nobody round watch all of 'em bail

Ooh, nah, nah, nah, I made a way
I separated, got some money, I played it safe
Ooh, nah, nah, nah, I made a way
They weren't checking on me, they were flexing on me
