

Cinderella

Clever

She rode out like a West Texas wind
Kicked up the dust and never looked back again
Bet she's out where the sun meets the dirt
Wild as a Mustang running from the herd

Ooo, feelin like it fit right, didn't think it'd end like
You never saying goodbye right before midnight

I don't know if I fell, I was under your spell out there on the
dance floor, spinning
When the clock struck twelve and it all'd gone to hell right al
ong with the fairytale ending
Were you scared that it would change, is that why you couldn't
stay, did you have to slip away
Cinderella

Spot burn like a desert sun
Soon as it's said it's like the magic was done
Grab your heels, out the door
In your wheels, headed for
That Oklahoma border
Left me wanting more, cause

I don't know if I fell, I was under your spell out there on the
dance floor, spinning
When the clock struck twelve and it all'd gone to hell right al
ong with the fairytale ending
Were you scared that it would change, is that why you couldn't
stay, did you have to slip away
Cinderella
