

Emotions In Motion

Clever

Put it out in the ashtray
I'm already halfway
I'm already halfway

You got my emotions in motion
The way you come do it like that
You ain't know I run through it like that
Got you feelin' brand new
You got my emotions in motion
The way you come do it like that
I was feelin' brand new, it like that
I ain't even know you do it like that
I ain't even know you do it like that

Make your body my religion, form that vision
Kiss me hard and love me harder, I hope you can hold 'til the end
But, wait, wait, wait, come through on time, yeah, come through on time
Run that love all through the night, yeah, all through the night

You got my emotions in motion
The way you come do it like that
You ain't know I run through it like that
Got you feelin' brand new
You got my emotions in motion
The way you come do it like that
I was feelin' brand new, it like that
I ain't even know you do it like that
I ain't even know you do it like that

And I just want you to come over, to come closer
I think I just want you to come over and over again
But wait, wait, wait, just hold me closer, you're a low-key soldier
Run that love all through the night, yeah, all through the night

You got my emotions in motion
The way you come do it like that
You ain't know I run through it like that
Got you feelin' brand new
You got my emotions in motion
The way you come do it like that
I was feelin' brand new, it like that
I ain't even know you do it like that

Put it out in the ashtray
I'm already halfway
I'm already halfway
Oh
