

Gently In The Night

Clever

I don't wanna leave this world like a gentle breeze
Like a whisper in the rain
I wanna rage like the storm, earthquakes and hurricanes
And fireworks, and battle cries
And leave my mark, it doesn't matter why
I wanna light the dark if I have to die here

I don't wanna go gently in the night
Lightning and thunder, I won't surrender without a fight
I can't fade into oblivion
I don't wanna go gently in the night
Lightning and thunder, I won't surrender without a fight
I can't fade like the rain clouds, I wanna rain down

I don't wanna disappear like a rain puddle
I want the tidal wave
I wanna burn like a forest fire, let it light the way
Some people fade to the background
I wanna shake the foundation
I want the trees in the ground shaking if I have to leave

I don't wanna go gently in the night
Lightning and thunder, I won't surrender without a fight
I can't fade into oblivion
I don't wanna go gently in the night
Lightning and thunder, I won't surrender without a fight
I can't fade like the rain clouds, I wanna rain down

I wanna rage like the storm, earthquakes and hurricanes, and fireworks

I don't wanna go gently in the night
Oh lightning and thunder, I won't surrender without a fight
I can't fade into oblivion
I don't wanna go gently in the night
Lightning and thunder, I won't surrender without a fight
I can't fade like the rain clouds, I wanna rain down, down
