

Gone With The Wind

Clever

Sleepin' all my troubles away
Sleepin' all my troubles away, yeah

I know you love to me broken
That part of you just haunts me in my sleep
So don't come any closer, oh
I know you love to me broken
That part of you just haunts me in my sleep
So don't come any closer, oh
You're still holdin' back a part of me

I traded your kisses for the wind on my face, yeah
I don't want love if it ain't done right
I blow my smoke up to the sunlight
But if you should leave, then I'll be gone with the wind, yeah
Oh, I don't want love if it ain't done right
I blow my smoke up to the sunlight
But if you should leave, then I'll be gone with the wind
(I'll be gone with the wind)

What are the chances?
You might need wings to fly until she dances
You're just a story waiting to be told
But where were when you needed me?
You only tell me when you need to leave
I take it one day at a time
I can't love pass my by
Love me now, don't ask me why
Always on the other side
I can't take another lie
All the secrets that you hide
You keep playin' with the fire

I know you love to me broken
That part of you just haunts me in my sleep
So don't come any closer
You're still holdin' back a part of me
Why must I be the last one to know?
The last one to know

But I traded your kisses for the wind on my face, yeah
I don't want love if it ain't done right
I blow my smoke up to the sunlight
But if you should leave, then I'll be gone with the wind, yeah
Oh, I don't want love if it ain't done right
I blow my smoke up to the sunlight
But if you should leave, then I'll be gone with the wind
(I'll be gone with the wind)
