

Heart Race

Clever

Forget about your ride now
Oh, Lord

Maybe I'll just have a few drinks
To get up out the mood swings
But, baby, I been through a few things in my time
One more drink
But forget about your ride now
Ooh, your skin lookin' light brown
While you're layin' in your night gown
By my side
And I'll just try to keep myself busy
So busy, with all I do
But as soon as I stop, as soon as I stop
I'll think of you

Because I know that you'll always be the one
That could light up my dark days
That still make my heart race
Over and over
Yes, I know that you'll always be the one
That could light up my dark place
I hope we don't part ways
And our time is over, you still make my heart race

Maybe I could make you all mine
And I just need this one wine
I'm just blinded by the sunshine in my eyes
But do you think that shit just ain't the same now?
Lord, I may ever break down
If I see another gray cloud in my sky
I'll just try to stay away from the wrong places
The court cases from how I feel
I never learned just how to love
Though, I loved you then and I love you still

Because I know that you'll always be the one
That could light up my dark days
That still make my heart race
Over and over
Yes, I know that you'll always be the one
That could light up my dark place
I hope we don't part ways
And our time is over, you still make my heart race

Ooh, oh
Ooh
