

# I Lost A Friend

Clever

On the day that I lost you  
My mother thought we'd live forever  
But I never thought you'd be another cross  
From a brother lost on the side of the highway  
And when I pass by, I can't help but ask why  
I think about the last time I felt that feeling I felt before  
On the day that I lost you, ooh, yeah  
On the day that I lost you, I lost a friend

How did all the talkin' left a lot I meant to say  
I meant to say, soul friend  
And now when the leaves blowin' in the wind  
I always think you're watchin'  
Now that my phone don't ring as much, I know you're gone  
Sometimes I close my eyes, I close my eyes and hear you talkin'  
I don't wanna feel this hurtin' anymore, no, no, no  
I don't wanna feel this burnin' anymore  
I just wish we were smokin', I try to feel the void  
But I can feel the void inside my heart that was broken

On the day that I lost you  
My mother thought we'd live forever  
But I never thought you'd be another cross  
From a brother lost on the side of the highway  
And when I pass by, I can't help but ask why  
I think about the last time I felt that feeling I felt before  
On the day that I lost you, ooh, yeah  
On the day that I lost you, I lost a friend

A man takes a drink, a drink takes the man  
Why sometimes we have to die so young? Got me never understandin'  
But sure as the alcohol reflects my face  
My heart reflects the hurt I have for you now that you're gone  
And I hear and I forget, and I still see and I remember  
And I dwell in the past, still dreamin' of the future  
And I fail to know exactly where I fall  
And I decided I'd make every dollar for the ones I love

On the day that I lost you  
My mother thought we'd live forever  
But I never thought you'd be another cross  
From a brother lost on the side of the highway  
And when I pass by, I can't help but ask why  
I think about the last time I felt that feeling I felt before  
On the day that I lost you, ooh, yeah  
On the day that I lost you, I lost a friend
