

# Learn To Fly

Clever

Teach me, so I can learn to fly

Once upon a broken day  
My god above would throw away  
The one thing that would open their eyes  
The angel claim and looked away  
I asked her why, she wouldn't say  
My heroes died of overdose  
I'm stuck here on this rollercoaster  
And I don't wanna die but if I gotta  
Can I wash these bloody hands in holy water?

And she said broken hearts  
When hopes just starts to fade away  
It's safe to say it goes hand in hand

And if your knees become weak  
And you let the devil in  
Then the hurt inside will never end  
You better pray and pray to the god you seek  
And learn to turn your cheek or die

You could learn to fly

I asked her why this awful place  
She cried and tried to hide her face  
And said she couldn't leave 'til I fly  
Ooh, I told her all I need is faith  
At least that's all I thought it takes  
She told me I was sent to save lives

And she said broken hearts  
When hopes just starts to fade away  
It's safe to say it goes hand in hand

And if your knees become weak  
And you let the devil in  
Then the hurt inside will never end  
You better pray and pray to the god you seek  
And learn to turn your cheek or die

You could learn to fly

And God, won't you commend my soul?  
I promise to defend your throne  
This ain't my time to send me home  
Teach me, so I can learn to fly
