

Middle fingers in the air  
Yeah  
Middle fingers

I loved you once, I know  
But ever since your love was effortless  
I've been high stuck wondering why  
I remember back when we had no options  
Treat me like I don't know problems  
Bitch, I'm a problem  
I remember back then so often  
I was high just smoking, coughing  
Thinking bout your love how I'd take it to the coffin  
Hanging on every word when you're talking  
Scared that we'd never be heard, but I promised  
We gonna make it out this hole once and for all  
Forget about the bullshit, let's break another Swisher  
I don't want to hurt you and I don't want to miss you  
But sometimes I just wish you'd just say fuck all the issues  
Cause if you die before me, I think I'm coming with you

I think I need the madness, it's like you always had this  
Way of making me need to stay  
I need you to see my pain and still believe in my smile  
Without you I'm just dreaming  
My love was just a word til you gave it a meaning  
And I think I need the madness, it's like you always had this  
Way of making me need to stay  
That normal shit gets boring  
When I woke up this morning  
I saw all I need

Don't fuck up my high  
Yeah

I knew better days before  
We took a detour and now I can't be sure  
I wonder what goes through your mind  
We fight, we fuck, we text, we talk, we argue  
I felt you start deep falling and it's over if we fall through  
I remember when I saw you  
For the first time and you looked at me like I was the worst kind

But I think you need the madness, it's like I always had this  
Way of making you need to stay  
I think can your pain but still believe in your smile  
Without me you're just dreaming  
My love was just a word til I gave it a meaning  
And that normal shit gets boring  
And when you woke up this morning  
You saw all you need  
Now I fuck up your high  
When I saw you for the first time  
Looked at me like I was worst kind  
But you knew it was worth trying  
I think we need the madness (yeah)
