

# Mattress

Clever

You keep the good shit in the cabinet  
You were wasted on me but I can taste it on you  
You just love like you're on matches  
I just want to feel the fire outside of this room  
And you just want me on your mattress  
(You just wanna love but you don't wanna love me)  
You just want me on your mattress  
(You just wanna love but you don't wanna love me)

It only feels real with the lights off  
I don't know where to run  
Touch like you mean it, kiss like you need it  
But you swear that you don't, no, you don't  
The sun, the sun is going down  
It's just like you to come around  
When you want somebody  
Reckon it could just be anybody

You keep the good shit in the cabinet  
You were wasted on me but I can taste it on you  
You just love like you're on matches  
I just want to feel the fire outside of this room  
And you just want me on your mattress  
(You just wanna love but you don't wanna love me)  
You just want me on your mattress  
(You just wanna love but you don't wanna love me)

I keep my keys on the counter, my boots by the door  
(Boots by the door)  
Same place I left them the weekend before  
(Same place)  
But when you want somebody  
Reckon it could just be anybody

You keep the good shit in the cabinet  
You were wasted on me but I can taste it on you  
You just love like you're on matches  
I just want to feel the fire outside of this room  
And you just want me on your mattress  
(You just wanna love but you don't wanna love me)  
You just want me on your mattress  
(You just wanna love but you don't wanna love me)

(You just wanna love but you don't wanna love me)  
(You just wanna love but you don't wanna love me)
