

Never Need Love

Clever

Shawty, please forgive me if I never need love
You'll never change my mind
Shawty, please forgive me if I never need love

All by myself, must I long for a lover?
Smoke in the wind and my feet in the sand
Some chase the money while chase each other
I had to fall just to see where I stand
I think it might earn me worst just to lose ya
I probably hang on the words that you say
I know I hurt you, just know I don't choose to
Love in the past always got in my way

Shawty, please forgive me if I never need love
I don't think that we should be together
Ooh, I been livin' in the fast lane tryna speed up
Probably just end up hating each other
I see you from a distance, I found a love before, it never did
me much
You the best I ever seen, but
Shawty, please forgive me if I never need love, I never need lo
ve
You'll never change my mind, you'll never change my mind

Found me so broken, oh what perfect timin'
Don't try and change all my ways with your words
Now I replace all their faces with diamonds
I bust one down every time that it hurt
My watch keeps dancing like nobody's watching
She takes my hand and we dance 'round the room
They can throw dirt while I'm dripping in water
I traded drugs for your purse and perfume

Shawty, please forgive me if I never need love
I don't think that we should be together
Ooh, I been livin' in the fast lane tryna speed up
Probably just end up hating each other
I see you from a distance, I found a love before, it never did
me much
You the best I ever seen, but
Shawty, please forgive me if I never need love, I never need lo
ve
