

## Still

Clever

Still, you're still the only thing on my mind  
I still love you after all this time  
Still replay our last goodbye and stand  
Still, like the world when you say my name  
Still here, sittin' in the pourin' rain  
Don't make a difference either way

I still make space in that shotgun seat  
Still stay up prayin' that it rains  
Still find myself at the bottom of a bottle  
Missin' you burns like a Marlboro  
I need our love, but if you don't  
Tonight, I hate the one you want  
I pray you show up, even though you never will  
But I'm here waitin' on you still

Mama still asks what you're doin', who you're with  
Where you're at nowadays  
Nothin's ever gonna change, so my answer is the same  
Yeah, I hate it that way  
Yeah, I took a good thing, I messed up  
Now I'm watchin' you all dressed up  
Dancin' around with somebody new  
Wishin' that I was in his boots

I still make space in that shotgun seat  
Still stay up prayin' that it rings  
Still find myself at the bottom of a bottle  
Missin' you burns like a Marlboro  
I need our love, but if you don't  
Tonight, I hate the one you want  
I pray you show up, even though you never will  
Well, I'm here waitin' on you still

I thought we were forever  
Till the day we weren't  
We used to be on fire  
Till the day that I got burned

But I still make space in that shotgun seat  
Still stay up prayin' that it rings  
Still find myself at the bottom of a bottle  
Missin' you burns like a Marlboro  
I need our love, but if you don't  
Tonight, I hate the one you want  
I pray you show up, even though you never will  
Well, I'm here waitin' on you still
