

Give Me Back That Old Familiar Feeling

Cliff Richard

I keep waiting for a song to come
And sing you back to me
I never felt so free
As when I had you

Our rhythm was the best
That's touched the likes of me
I was really me
When I had you

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me
Singing together

My radio still plays the songs
You liked to hear
I wish you were near
Oh I need you
I take the time and I tune the station in real clear
As if you were here
Oh I love you

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me
Singing together

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me
Singing together

Give me back that old familiar feeling
That left me feeling like I was someone
Give me back the song we sang in harmony
Just you and me
Singing together
