

Hey Doctor Man

Cliff Richard

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

I only see her when I'm sleeping
I hold her close and touch her hair
But when the morning comes a-peeping
I reach for her and she's not there

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

The nights are short, the days get longer
My sunny days have turned to rain
While I grow weak my love grows stronger
What can I do to ease the pain

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

I feel I'm drifting in an ocean
Without a hope of ever reaching shore
Can you prescribe a simple potion
To put me asleep forever more

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

Hey doctor man, can you help me please?
I've an aching in my heart, a quaking in my knees
There's a vision in my eyes that I just can't explain
I'm in love with a girl and I don't know her name

Hey doctor man, help me
