

# Let's Make a Memory

Cliff Richard

(Let's make a memory, let's make a memory)  
Let's make a memory, let's try  
Making a memory you and I  
Take my hand, promise me  
Before the night is over  
We'll make a memory (let's make a memory)

I'm gonna open up my arms  
So you can thrill me with all your charms  
Come along dance with me  
Before the night is over  
Let's make a memory

A memory of (one) one kiss warm and tender  
(Two) Two lips in sweet surrender  
(Three) Three chosen words of love  
(Four) Four thousand stars above

Let's make a memory to share  
I wanna show you I really care  
Take a chance and you'll see  
Before the night is over  
Let's make a memory

A memory of (one) one kiss warm and tender  
(Two) Two lips in sweet surrender  
(Three) Three chosen words of love  
(Four) Four thousand stars above

Let's make a memory to share  
I wanna show you I really care  
Take a chance and you'll see  
Before the night is over  
We'll make a memory (let's make a memory)

Take a chance and you'll see  
Before the night is over  
We'll make a memory (let's make a memory)  
Let's make a memory
