

# Lonely Girl

Cliff Richard

Sparrows to their nests can fly  
Foxes in their dens can hide  
But she's so lonely  
'Cause he only  
Passes by just out of reach  
Of the lonely girl

Life to him is one big scheme  
He just drifts from dream to dream  
When nothing's real  
But she feels  
Life is more than simply loving him  
When he only wants loving from  
This lonely girl

Life is more than simply loving him  
When he only wants loving from  
This lonely girl
