

Put My Mind at Ease

Cliff Richard

Darlin' put my mind at ease
Come on baby, please
How long must I wonder 'bout you
Tell me I've been wrong
And I still belong
I just can't go on without your love

Your kisses are colder
At least it's how it seems
You treat me like I don't know you
It's just like one bad dream

Darlin' put my mind at ease
Come on baby, please
How long must I wonder 'bout you
Tell me I've been wrong
And I still belong
I just can't go on without your love

Each time we'd say goodbye
I'd think that it's the end
I don't know if you'll be there
When I come back again

Darlin' put my mind at ease
Come on baby, please
How long must I wonder 'bout you
Tell me I've been wrong
And I still belong
I just can't go on without your love

It's gonna be alright I tell myself
My love, no matter what I do
Well in the middle of the night
I toss and turn
I guess I gotta hear it from you

Darlin' put my mind at ease
Come on baby, please
How long must I wonder 'bout you
Tell me I've been wrong
And I still belong
I just can't go on without your love

Darlin' put my mind at ease
Come on baby, please
How long must I wonder 'bout you
Tell me I've been wrong
And I still belong
I just can't go on without your love... darlin'
