

## Rattler

Cliff Richard

Don't know where I'll be tomorrow  
Riding on some northern railroad  
Left some setting suns behind me  
There's be many more before I'm through  
Rattler take me home to my baby  
One way ticket  
Bringing me back to you

Been away for such a long time  
You've been on my mind the whole time  
I've changed cities like an old coat  
Train a rollin'  
Don't know where I am  
Friends I'll never meet again  
Memories drifting by like grains of sand

Rattler moving on down the line  
Dreams to carry me through the night  
Country lanes sweep by before me  
Friendly stars to light my way to you  
Rattler take me home to my baby  
One more town  
Journey's almost through
