

# Run To The Door

Cliff Richard

Every time a bell rings  
Every time a bird sings  
I run to the door  
Every time the wind blows  
Even though my heart knows  
I run to the door

Everyday is lonely  
And your memories only  
Make me want you more  
When somebody goes by  
Acting like a fool  
I run to the door

When I see the Sun rise  
Every time my heart cries  
I run to the door  
Early in the twilight  
Even at the midnight  
I run to the door

Everyday is lonely  
And your memories only  
Make me want you more  
When somebody goes by  
Acting like a fool  
I run to the door

(Memories that never die, all alone I sit and cry)

When I hear my heart call  
When I hear a foot fall  
I run to the door (run to the door)  
Wishing I could see you  
Wishing it could be you  
There at the door (run to the door)

Though you didn't want me  
Memories will haunt me  
As I walk the floor  
When somebody goes by  
Acting like a fool  
I run to the door

Every time a bell rings  
Every time a bird sings  
I run to the door (run to the door)  
Every time the wind blows  
Even though my heart knows  
I run to the door (run to the door)

Everyday is lonely  
And your memories only  
Make me want you more  
When somebody goes by  
Acting like a fool  
I run to the door

Every time a bell rings  
Every time a bird sings  
I run to the door (run to the door)  
Every time the wind blows  
Even though my heart knows  
I run to the door (run to the door)
