

That's What the Night Is For

Cliff Richard

Life is like a mystery we can't explain
All your hopes and dreams are going up in flames
Baby in a second everything can change, yeah
That's what the night is for

You never ever know 'less you take that chance
Asking that girl if she wants that dance
Crazy things can happen once you understand
That that's what the night is for

People say that love is just a fantasy
'Cause there's something in the stars and the chemistry
Oh but now you're standing right in front of me
Baby I believe

That's what the night is for
That's what the night is for
For making love and giving it all
That's what the night is for

Everybody's only dancing in the dark
Holding out for something trying to catch that spark
Trying to find a way to mend a broken heart
That's what the night is for

Hey, baby now it's time we gotta roll the dice
You're beautiful just dancing in the neon light
You don't even have to know the beat
Just go with me 'cause

That's what the night is for
That's what the night is for
For making love and giving it all
That's what the night is for

Holding onto miracles
Never ever letting 'em go
Dancing 'til the sun comes up
Yeah, that's what the night is for

That's what the night is for
For making love and giving it all
That's what the night is for

Holding onto miracles
Never ever letting 'em go
Dancing 'til the sun comes up
Yeah, that's what the night is for

Oooh, that's what the night is for

Holding onto miracles
Never ever letting 'em go
Dancing 'til the sun comes up
That's what the night is for
