

Too Close To Heaven

Cliff Richard

We came to Too Close to Heaven
We strayed tot far from the real world
We came too close now i can never fall in love again
And though i tried to gorget you
I know i'll never forget you
We came too close
We took each other too close to heaven
Too close to heaven
Novody likes losing but why did we lose it all?
Sometimes the highter you fly the harder you fall
It's all so confusing but one thing I'll always know
We tried so hard and lost each other along the way
We didn't just go
We came to Too Close to Heaven
We strayed tot far from the real world
We came too close, now i can never fall in love again
And though i tried to gorget you
I know i'll never forget you
We came too close
We took each other too close to heaven
Too close to heaven

We saw it so clearly and view from the very top
But sometimes the better the view the steeper the drop
We made it so nearly
It seems only yesterday
I can 't explain though life goes on i still think of you
You'll never fade away
We came to Too Close to Heaven
We strayed tot far from the real world
We came too close now i can never fall in love again
And thought i tried to forget you
I know I'll never forget you
We came too close
We took each other too close to heaven
Too close to heaven
Too close to heaven
Too close to heaven
Too close to heaven
