

Tough Enough

Cliff Richard

I picked up my baby just the other night
A we went a riding in the moonlight
I had real fine music on my radio
We're cool and pretty now don't you know
Oh there we were in a lovers lane
I said I'm out of gas baby and it' looks like rain
She said ooowee that's tough enough

My pretty baby she a looks so fine
I nearly drove my baby out of my mind
Settled easy kinda whispered low
She said Daddy Daddy I love you so
And I said ooowee that's tough enough

Now I searched everywhere all across the world
I'll never find no one that could top my girl
She thrills me from my head down to my toes
You see any sugar in my sugar bowl

And if it takes me for the rest of my life
Hey the people gonna make her my wife
I love my baby and it's plain to see
A when she rolls those big brown eyes at me
I go ooowee that's tough enough

My pretty baby she a looks so fine
I almost drove my baby out of my mind
Settled easy kinda whispered low
She said Daddy Daddy I love you so
And I said ooowee that's tough enough
And I said ooowee well that's tough enough.
