

# When My Dream Boat Comes Home

Cliff Richard

When my dream boat comes home  
And then my dream no more will roam  
I will meet you and I'll greet you  
When my dream boat comes home

Moonlit water will sing  
Of that tender love you'll bring  
We'll be sweethearts forever  
When my dream boat comes home, I get all home

When my dream boat comes home  
And then my dream boat no more, no more will roam  
I will meet you and I'll greet you  
When my dream boat comes home

And moonlit waters will sing  
Of that tender love you'll bring  
And we'll be sweethearts forever  
When my dream boat comes home, come on home

When my dream boat comes home  
And then my dream no more will roam  
I will meet you and I'll greet you  
When my dream boat comes home

Moonlit water will sing  
Of that tender love you'll bring  
We'll be sweethearts, sweethearts forever  
When my dream boat comes home, I get all home
