

And Lonely

Climax Blues Band

I feel so sad and lonely
The only thing I know is my name
I tell myself and to other people
But I know I'll stay the same
I tell myself "Well change things"
But I know I'll stay the same

I'm the only one in the whole world
Knowing the way I feel
I feel so warm to myself
And the whole world is cold as steel
I fool myself to think I'm dreaming
When I know the whole thing is real

I feel so upset and lonely
The only thing I know is my name
I tell myself and to other people
But I know I'm the only one to blame
I tell myself "Well change things"
But I know I'll stay the same
