

# Buried Treasure

Climie Fisher

What good is a guiding light if you don't let it shine  
You can't hide in the darkness all your life  
I know the love you've spoken of  
Broke your heart last time  
But there's no need to be afraid of mine

Secrets you hold, buried treasure, buried treasure  
More precious than gold, buried treasure, buried treasure  
But beauty will die, locked up inside  
So just let your love unfold

Forget the past, it doesn't last  
The future's here with me  
I can give you everything you need  
I'll hold you close I'll be your fortress  
You'll be safe with me  
So open up and let me set you free
