Sun is slanted on the warm tiles  
When the home is in the mirror  
When the home is in a big smile

Give it, learn it, cap out, share it, see it all before your eyes  
And sup it, cup it, pity poor  
Free not free your belly full of glee  
You're living for your own  
And make it known

See yourself outside your skin here  
See yourself outside you for miles  
When the hoax is in the mirror  
When the hoax is in a big smile

Give it, learn it, cap out, share it, see it all before your eyes  
And sup it, cup it, pity poor  
Free not free your belly full of glee  
You're living for your own  
And make it known

Give it, learn it, cap out, share it, see it all before your eyes  
And sup it, cup it, pity poor  
Free not free your belly full of glee  
You're living for your own  
And make it known  
And make it known  
And make it known  
And make it-
