

I'm Aware

Clinic

In the day, you have someone
Who can be true and all of fun
In the dark, you're never gone
In the dark, you're never done

It's good
And it's good

You see the corners now engaged
With your face on every page
In the dark, you're never done
In the dark, you're never gone
In the dark, you lie for us

And it's good
And it's good
And it's good

Back and forth you're rolling
Through another evening
What is it you're playing
In the time you're waiting?
All the love is gone
And all the love is gone

And it's good
And it's good
And it's good

And now I'm aware
And now I'm aware
Yes, I know I'm aware
Oh, I know I'm aware
Yes, I know I'm aware
Oh, I know I'm aware
