

All winter, we're locked in lust
All winter, with ice in you
Now you're melting, the summer sweltering
As you're leaning from what you're gleaning

Di-did you know, you're chuckled free
You live your life in fantasy
Suffer, I know you, suffer, we're growing
Suffer, we're closer as we broker

And did you say you're on my plane?
I'm coming back, I love Elaine
I love Elaine

Suffer, suffer
Suffer, suffer

So Irene has more to see
Four favors and different flavors
Sunny poacher, the day is over
As you're leaning from what you're gleaning

Di-did your wife, you chuckled free
You live your life in fantasy
Suffer, I know you, suffer, we're growing
Suffer, we're closer as we broker

And did you say the midnight train?
I'm coming back, I love Elaine
I love Elaine
Oh, I love Elaine

Suffer, suffer
Suffer, suffer

Miles and miles of golden evenings
Raise your glass and never leave here
Oh, how I need you, so now I need you
All for you, all for you

Made for you, I was made for you
