The Bridge

Clinic

Bits of batler cook in the glow, You need the love you need it to show Come come come oh how we know, You need the love you need it to show

Come and glow
It's good as ever
Good as ever close

Look at all the sun on the waves You need the love you need it today Come come it's never too late You need the love you need it today

Come and glow
Its good as ever
Good as ever close

Meet me on the bridge out of sight You need the love you need it to die, Come come you know that is time You need the love you need it to show Come and glow
