The Hard Way

Funny thing about a mind Lookin' for that brighter side It's the only way that I can find To let my feelings hide But every now and then I falter back on old memories And I'm right back in love again And back down on my knees And I'm finding out the hard way There'll never be a time when I don't think about you And I'm finding out the hard way At least here in my mind, I won't go on without you All the times I reminisce I'm finally realizing this Until it's gone it can't be missed But I'm finding out the hard way Sure I'm gonna make it through The sun'll overtake the night again Then it's out of my mind with you And let another day back in And for a while I'll carry on But what you said is surely comin' true And although it might not last that long The times are not so few I'm finding out the hard way
