

Silver Lining

Clint Lowery

Oh I'm so amazed
What we do, what we say, where we go, how we change
I kinda feel betrayed
Part of me wants to die when I carry this around. Insane...
Well at least we're not the same
What keeps us all up at night
Will follow you into the grave
Some things will never change

I swear to God, you should come around
They take me in and spit me out
What do you care, if I'm coming down
On your way up

I wanna be your silver lining
I wanna be your only answer

You know I'm not ashamed
I let the demons cry so loud they give out
I don't feel out of place
That part of me will survive if I keep you all around. Insane...
Well at least I'm not afraid
What gives you all the right
To follow me into the flames
Some things are meant to be

I swear to God, you should come around
They take me in and spit me out
What do you care, if I'm coming down
On your way up

I wanna be your silver lining
I wanna be your only answer
I wanna be your silver lining
I wanna be your only answer
I wanna feel it, the silver lining
So give me more than I could ask for

I'm not afraid of anything
Oh no I promise you won't
You'll never see this side of me
'Til you can't get what you want from me

I wanna be your silver lining
I wanna be your only answer
I wanna be your silver lining
I wanna be your only answer
I wanna feel it, the silver lining
So give me more than I could ask for
