

do i even know me

Clinton Kane

Started off with my parents not around me
Two kids walking on different side of the road
One of us that could've grown up happy
The other I'm stuck with digging out of a hole I've known so long
Can't recognise myself anymore
Do I even know me
Do I even know me at all

If I listened closely
Would I even love me at all
Watch my reflection fade in my eyes
What I've becomes haunting me through the night
Do I even know me
Do I even know me at all

Do I even know me
Do I even know me at all
Do I even know me
Do I even know me

Do I even know me
Do I even know me at all
