

I DON'T WANNA LIVE IN A WORLD WITHOUT YOU

Clinton Kane

I remember the way you looked at the world and adored it
You sit in the corner of every room but still light up the moment

And I've been dreaming about the day you tell me that you want me back
But hearts don't fit, even if we love so hard we know there's no coming back

And I don't wanna live in a world without you
And all I want is just to come home back to you
Every little moment with you felt like paradise
Just you and I
And I don't wanna live in a world without you

Two years are gone and I sit around and I try to ignore it
But no matter how much I try it still feels like it was this morning, oh

And I've been dreaming about the day you tell me that you want me back
But hearts don't fit even if we love so hard we know there's no coming back

And I don't wanna live in a world without you
And all I want is just to come home back to you
Every little moment with you felt like paradise
Just you and I
And I don't wanna live in a world without you

I don't, I don't wanna let go, I don't know me without you
I know, I know gotta let go, hope I find me without you
I don't, I don't wanna let go, I don't know me without you
I know, I know gotta let go, hope I find me without you

I don't wanna live in a world without you
And all I want is just to come home back to you
Every little moment with you felt like paradise
Just you and I
And I don't wanna live in a world without you
