

I GUESS I'M IN LOVE

Clinton Kane

Oh I'm obsessed
With the way your head is laying on my chest
How you love the things I hate about myself that no one knows
But with you I see hope again

Oh I'm a mess
When I overthink the little things in my head
You seem to always help me catch my breath but then I lose it a gain
When I look at you, that's the end

And why do I get so nervous when I look into your eyes?
Butterflies can't stop me falling for you

And darling, this is more than anything I've felt before
You're everything that I want but I didn't think I'd find
Someone who was worth the wait of all the years of my heartbreak
But I know now I've found the one I love

And I love the way
You can never find the right things to say
And you can't sit still an hour in a day
I'm so in love, let's run away
Because us is enough

And why do I get so nervous when I look into your eyes?
And butterflies can't stop me falling for you

And darling, this is more than anything I've felt before
You're everything that I want but I didn't think I'd find
Someone who was worth the wait of all the years of my heartbreak
But I know now I've found the one

Come close
Let me be home for anything
Good or bad, I know it's worth it, whoa

And darling, this is more than anything I've felt before
You're everything that I want but I didn't think I'd find
Someone who was worth the wait of all the years of my heartbreak
But I know now I've found the one I love
