

KEEP IT TO YOURSELF

Clinton Kane

You should probably keep it to yourself
I don't need to know about the way that you're runnin' 'round getting
down with somebody else
I know that I said I wish you well
But you don't need to throw it in my face that you're happy now
Happier with somebody else

And something tells me you've been getting over me
And moving on with somebody
And I know how you like to kiss and tell

But you should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
You should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
And you should probably keep it to yourself

You should probably keep it on the low
I don't need to see that you're hanging out late at night
Places that you and me go
And usually I'm not a jealous soul
But lately I've been spinnin' out
Thinking 'bout how you ain't thinking about me at all

And something tells me you've been getting over me
And moving on with somebody
And I know how you like to kiss and tell

But you should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
You should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
You should probably keep it to yourself

And even after all that you've been doing
You crossed your heart but you found someone new
Somehow you found a way to hurt me even if you're not around

And something tells me you've been getting over me
And moving on with somebody
And I know how you like to kiss and tell

But you should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
But you should probably keep it to yourself
Ohh oh, ohh oh, ohh oh
You should probably keep it to yourself
