

Hey girl, what you're doin'?
Yeah, you knocked me to the floor
The way you use your sex appeal
It makes me keep wanting more

Cause I heard you got it even strong
You control me with your ways
And I won't fuck with you anymore
But I still do it anyway

What can I do?
I'm just so caught up
You knocked me on the floor
What can I do?
Would you picture me in it with that UV love?
UV love

You're so venomous
You can even afford to kill
When you're sexy you're so dangerous
I'm addicted how you feel

The moon is strong and I just wanna love you
Baby, please come down
You drop me in your lies when you're around

Cause I heard you got it even strong
You control me with your ways
And I won't fuck with you anymore
But I still do it anyway

What can I do?
I'm just so caught up
You knocked me on the floor
What can I do?
Would you picture me in it with that UV love?
UV love

You got to hold your UV love
Yeah, you, you got to hold your UV

Ain't nobody better, I assure you, I checked
God bless them!
They all are on top of you
Between your knees
You like it, I know it
You keep going where I go

What can I do?
I'm just so caught up
You knocked me on the floor
What can I do?
Would you picture me in it with that UV love?
UV love
You got UV love,
Yeah you, you got to hold your UV love
