Once again, back is the incredible
Guess the feeling wasn't indelible
Masticated up all the edibles
Still ain't trippin'
Apathy had to make out of body, the status quo
Avatar opportunity is creating the capital
And no cap, audiences are infinitely more valuable
When they thinkin' they ugly inactive fat and unfashionable (Kill yourself)

I'm the one and only
Blue blockers, chucks, and glowing screen
I'm the one and only
Blue baby bottles and Soda Stream

More pixel equal a brighter dream

Stealer, dream, killa
Straight edges learning how to lean

Cool enough to rock the metal skin like it was natural
Matter of fact come on and touch it
Might be what you actually want
A waste of energy debating the mechanical for genitals
When gender is so easily programmable, you know that
I'm the one and only
Beating it without leaving a bruise
I'm the one and only
Out your window whatever you choose
I'm the one and only
Cameras are tracking your every move
I'm the one and only
So give 'em something that they can use
I'm the one and only
Modify energy with a click
I'm the one and only
Skin is impractical for a dick
I'm the one and only

What's a disease if you aren't sick?
Consciousness in a memory stick
And that means that you can
Plug it in and feel what they believe
Drive it harder till you know then you will never be relieved
In this moment at your fingertips is everything you need
And a world full of feeling for your impulses to feed long as you agree that

I'm the, I'm the one and only
I'm the, I'm the one and only, only, only
I'm the, I'm the one and only
The one, the one
I'm the, I'm the one and only
I'm the, I'm the one and only, only, only
I'm the, I'm the one and only
I'm the one and only dominator

Overheat
Let it breathe
Come back for more
The stroke elite
Rubber-free
It's rational
A no-compete
Keep the beat
In fashion
There will never be
More elite
You could let your passion drip down on the floor
Are you sure?
You need to be
They keeping score
1:0
Is all you need
The overload
Crack the code
Open the sequence
Take it slow
So you know
I'm the one and only

Ads up in the sky
So you can see them when your on your back
You might almost see the day too with a sun ray
Though satellites that have replaced the clouds
Beautiful as stars, you got more bars for mobile
Don't you now
Get what you want
Whatever the place better be ready to go
You are a perfect picture pulled out from your memory so
Might as well deface your face
A base all glistening and golden showered
And right at golden hour
In the middle of the golden city, so pretty
Give up all your power because

I'm the, I'm the one and only
I'm the, I'm the one and only, only, only
I'm the, I'm the one and only
The one, the one
I'm the, I'm the one and only
I'm the, I'm the one and only, only, only
I'm the, I'm the one and only

I'm the one and only dominator
