

Run it, run it, run it down
Run it, cable, underground
Run it, drink it, breathe it in
Run it, run it

Sink into the spaces in between the applications
Aren't on the map, and just a step in
To them is to have the revelation
That there's something more than what is getting
Through the user channels usually
Colors undefined by the RGB
Unknown errors aren't all unruly
Pinwheel feelings aren't always sinking
Spinning through mainframe
It's a giant brain, lose yours
Everything is okay, move

Run it, run it, run it down
Run it, cable, underground
Run it, drink it, breathe it in
Run it, run it, execute and

Run it, love it, drink it, breathe it
Make it, never, leave it
Running, love it, drink it, breathe it
Break it, never leave it
