clipping.

Beat stay knocking in the back
Waking up the drones, turning on the cams, there she go
Beat stay knocking in the back
Fucking up the homes, profit in the scams, get it right

Beat stay knocking in the back of the hover
And they love it every time she float by
See 'em grinning 'cause the streets stay rocking to the blap
Baby mother, better cuff her, this the time she go bi, there she go
Heat keep knocking out the power, people making hand fans
While they cursing at the sky till they see her coming
TV watchers turning off they holograms
Braving air just to come outside, get it right

She be bossy with the slaps
Alpine blap, mind on tap
Mod sunglass with the google eye, already knew the lie
She be tracking all the stats, there she go
She be flossing in the trap
Gucci on the sunglass, Prada on the mask
Maserati on the dashboard, yeah, she paid cash for it
Miss her with the crypto, a old school mack, get it right

Campaign scam, politicians in her pocket
Man chained, damaging image in a locket
Had her hand-made tunnel vision with the rocket
Blam, there she go
Meet her at the corner store or Michelin star, it don't matter
She a factor in the skin trade, tech game, dope game, no names spoke
Get it right, she be managing the funds
Handling the guns, brandishing the ones
When she run up in the club to the VIP
All eyes seeing the diamonds lying on her tongue
There she go, she got plenty enemies
Wanna be the Gs, thinking they gon' squeeze
Mothafucka, please, she a factor in the whole thing, no name spoke

Aye, bitch, is you a clown? You might have to settle down
We can really paint the whole town and that face of yours
I'm out here looking like a fucking candy store, is you shitting me?
Bitch, this ain't no Billy Jean, I had to tell 'em to beat it
Now he telling me explicit things, got a appetite for the whoa, whoa
Jumping in this bitch like pogo (Pogo)
I just scored for the mothafucking low though (I know that's right)
I hit the door and they asking for the photo (For the photo)
I'm feeling choice so I look towards the photo (Shink, shink, shink)
Bitch gon' ask if I'm rolling, I reply, "□□□□□□"
On this bitch like arabesque, you cannot finesse
Breaking down a mound of stress, I opened up a jar of that yes
And on the schedule steady check, but don't be worrying all about that
Enough about me, look, I'll be in the breeze and
I just flew the trees in, I'm eating by the season
I guess I'm off the deep end but still polite
He gon' spot me for my light, and then I hit the get light, you'll be a'ight

Beat stay knocking in the back
Waking up the drones, turning on the cams, there she go
Beat stay knocking in the back
Fucking up the homes, profit in the scams, get it right
Beat stay knocking in the back
She don't give a fuck, money in the hand, there she go
