

# It's A Beautiful Thing

Clique Girlz

Am I losing my mind?  
You're everywhere and I don't know why  
Something I can't deny  
On and on like a song in my head  
And I can't do a thing about it

When your heart can't stop like a runaway train  
And it feels so good that you can't explain  
It's a beautiful thing

When you just can't think about anything else  
And you give so much that you lose yourself  
It's a beautiful thing, hey

I keep hearing your name  
It's in the sun and it's in the rain  
I just heard it again  
Don't know how it got into my head  
But I don't wanna be without it

When your heart can't stop like a runaway train  
And it feels so good that you can't explain  
It's a beautiful thing

When you just can't think about anything else  
And you give so much that you lose yourself  
It's a beautiful thing

Hope this feeling never goes away

Hey, hey, beautiful, beautiful thing  
Oh, oh, oh, oh, oh, oh, oh  
Hey

When you lose your way and don't have a clue  
And you happen to find somebody like you, somebody like you  
It's a beautiful thing, it's a beautiful thing

When you're on the moon and you can't get down  
Just me and you, no one else around  
It's a beautiful thing, it's a beautiful

When your heart can't stop like a runaway train  
And it feels so good that you can't explain  
It's a beautiful thing, it's a beautiful thing

When you just can't think about anything else  
And you give so much that you lose yourself  
It's a beautiful thing, it's a beautiful thing  
It's a beautiful thing

It's a beautiful thing  
It's a beautiful, it's a beautiful thing  
It's a beautiful thing
