Be Happy

CLMD

We used to feel like nothing's better
Fucking beautiful together (yeah)
Felt like I was always center of attention
To you
Then we fell through

You said things that left me broken
Like it was nothing
I did things that I'm not proud of
And you too

We'll be better when it's over
It's obvious that we
Should end it
And be happy

You said things that left me broken
I did things that I'm not proud of
And you too

We'll be better when it's over
It's obvious that we
Should end it
And be happy

For you, for you, for you
And be happy

It's the end of our adventure
Didn't happen like we thought it would
Needed time to see it wasn't
Working
Not so perfect

You said things that left me broken, like it was nothing
I did things that I'm not proud of
And you too

We'll be better when it's over
It's obvious that we
Should end it
And be happy

You said things that left me broken
I did things that I'm not proud of
And you too

We'll be better when it's over
It's obvious that we
Should end it
And be happy

For you, for you, for you
And be happy

For you, for you, for you
And be happy

You said things that left me broken
Like it was nothing
I did things that I'm not proud of
And you too

We'll be better when it's over
It's obvious that we
Should end it

And be happy

And be happy

And be happy

And be happy

And be happy
