

Into the Light

CLMD

When the heat goes on and on
Into the night, into the night
And the flames will never fade
Into the light, into the light

(When the heat, when, when, when)
(When the heat, when, when, when)
(When the heat, when, when, when)
(When the heat, when, when, when)

(When the heat, when, when, when)
We know it will last forever
(When the heat, when, when, when)
(When the heat, when, when, when)
We know it will last forever
(When the heat, when, when, when)

When the heat goes on and on
Into the night, into the night
And the flames will never fade
Into the light, into the light

(When the heat, when, when, when)
(When the heat, when, when, when)
(When the heat, when, when, when)
(When the heat, when, when, when)

(When the heat, when, when, when)
We know it will last forever
(When the heat, when, when, when)
(When the heat, when, when, when)
We know it will last forever
(When the heat, when, when, when)

(When the heat, when, when the heat, when)
We know it will last forever
(When the heat, when, when the heat, when)
(When the heat, when, when the heat, when)
We know it will last forever
(When the heat, when, when the heat, when)

(When the heat)
We know it will last forever
