

ARE YOU WITH ME

ClockClock

It's been months since I was working and I lost my way
When you came around I promised to make you proud one day
One day all our dreams will come true
I speak it into existence
Trust me when I promise you to keep you safe

Maybe we were guaranteed
To fail from the start
Maybe we are meant to be
A 1000 miles apart
Maybe we still got room to grow
Before we meet again
Who knows one day we may find
Back again

What if we just need a little more life
Connect when the time is right
Tell me are you with me
Tell me are you with me
Maybe we had to lose what we had
In order to understand
Tell me are you with me
Oh me are you with me

It's been months since we've been working
Working on our ourselves
Sometimes I just can't keep up with you
I try my best but fail
I'm happy for your accomplishments
You never made me feel less
Trust me when I promise you to keep you safe

Maybe we were guaranteed
To fail from the start
Maybe we are meant to be
A 1000 miles apart
Maybe we still got room to grow
Before we meet again
Who knows one day we may find
Back again

What if we just need a little more life
Connect when the time is right
Tell me are you with me
Tell me are you with me
Maybe we had to lose what we had
In order to understand
Tell me are you with me
Oh me are you with me
