

Just a Dream

ClockClock

I wish you were mine,
I wish you were here,
memory's of you make troubles disappear,
the world keeps turning, my heart stand still
when I see you , it feel's
just like a pill x3

Did I touch an angel, or does it like it seem's,
can i trust myself or was it just a dream? x2

I want you to love me,
I want you to stay,
when I think about you, makes me drifting away,
theres just one feeling, when Im with you,
seeing you smiling its like a
better view x3.

Did I touch an angel, or does it like it seem's,
can i trust myself or was it just a dream? x2

Dont wake me up ...

Did I touch an angel, or does it like it seem's,
can i trust myself or was it just a dream? x2

I've lost my mind, my feelings out of time,
i can't control myself every day,
the night was long and all the people gone,
is it like it seems or was it just a dream?
