

I pull up to the red light, late night  
Saw you in the backseat of the car  
I saw into your red eyes, your red eyes  
You've been looking at me from afar  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane

I pull up to the red light, late night  
Saw you in the backseat of the car  
I saw into your red eyes, your red eyes  
You've been looking at me from afar  
I pull up to the red light, red light  
Red light, red light  
I saw into your red eyes, red eyes  
Red eyes, red eyes

I was out for a ride, out in the break of a day  
I was on my mind, driving around to forget  
Let it go for a while, let it go for a night again  
Just a moment before, I was falling off the edge

I pull up to the red light, late night  
Saw you in the backseat of the car  
I saw into your red eyes, your red eyes  
You've been looking at me from afar  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane

A moment can change your life  
I tried my best not to smile  
I'm stuck in the traffic with you  
I gaze in your eyes and you gaze in mine  
A moment can change your life  
Two people cross and collide  
We just met out of the blue  
I gaze in your eyes and you gaze in mine

I pull up to the red light, late night  
Saw you in the backseat of the car  
I saw into your red eyes, your red eyes  
You've been looking at me from afar  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane  
Imagine what you do to me, do to me, babe  
I didn't make a move, now you drive me insane
