

# No Borders!

Close Your Eyes

No borders! No boundaries!  
I need space between my soul and the restrictions around me  
No borders should enclose us  
Why are we caged by the lines on a map? There's more that defines us!  
Define freedom

Bring down...  
Bring down the barricades that rise between us!  
Terraform and prepare for the new wave  
It feels like I'm waking up for the first time, the first time!  
Whoa, I'm not getting through to you (Keep on pushing and pushing)  
Whoa! You put your walls up! You put your walls up!

Your borders just make boundaries  
Your borders just make boundaries  
Your walls are building boundaries  
That reinforce, reinforce!

Free from search and seizure, you've been busy and so have I  
It seems your loopholes weren't so water-tight  
Whoa, I'm not getting through to you (Keep on pushing and pushing)  
Whoa, you put your walls up, just put your walls up!

Your borders just make boundaries  
Your borders just make boundaries  
Your walls are building boundaries  
That reinforce, reinforce!

They have control, they have control  
They make you wanna believe  
They have control, they have control  
They have control of your freedom and fortune

'Cos I just believe no man should feel like a criminal  
When the border line intimidates on basic principle  
'Cos in the end it comes down to how long you're able to resist  
It's a shame so many can relate to this

Your borders just make boundaries  
Your borders just make boundaries  
Your walls are building boundaries  
That reinforce, reinforce!  
That reinforce, reinforce!
