

We Have Time

Clou

I can't believe you're sad
After what you told me on the
told me on the phone
I think you should be glad
now you get to try a new place
find a different home
but we still have time, we'll use it up together
drinking till we wake up on the floor
yeah, we have time and its sunny weather
You'r the one that always makes me smile
c'mon try to show me now
I'm not gonna change my mind
excuses are what keep us here
the truth is what's outside
I'm not gonna tell you how
it's only up to you to find
the reasons are all crystal clear
I think about the past
but I'm sure the future has more for us in store
A day just like the rest
tomorrow you willleave the way you came here years
before
we'll always have time, though we're not together
like a secret kept away from everyone
yeah, we have time and its sunny weather
to see you smile will always be my setting sun
c'mon try to show me now
I'm not gonna change my mind
excuses are what keep us here, the truth is what's
outside
I'm not gonna tell you how
It's only up to you to find
the reasons are all crystal clear
the reason are all crystal clear
the truth is nothing to fear
